Participation Opportunities

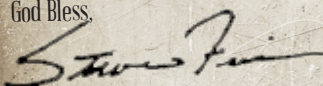

Dear Friends,

If you have been out to our campus in Morgantown, you have seen first hand what you are investing in. Children are our most valuable resource. West Virginia ranked 5th in the nation in a 2023 study of children "being idle." What this means is that our children are not doing much of anything. They need to be learning a work ethic, a skill, and know what it means to have passion and purpose in life. We are currently #2 in the nation for children living in poverty, only behind Washington District of Columbia. The list goes on.

West Virginia places more children in foster care than any other state in the country, with four times as many children in foster care per capita as the United States as a whole. West Virginia's rate of 13.0 children in foster care per 1,000 children is nearly double that of the next highest state, Alaska, at 7.4 per 1,000 children.

We know the need is right at our doorstep. I want you to know that we are fighting for these children. Children have a safe place to grow up, go to school, and experience a childhood while we work with known family members. We can all be a part of rebuilding the lives of our most valuable resource. Thank you!

God Bless,

Steve Finn
Executive Director
